August 10, 2012

Agencies, Organizations and
Individuals Interested in the
Interstate 710 Corridor Project

On June 29, 2012, the Draft Environmental Impact Report (EIR)/Environmental Impact Statement (EIS) for the Interstate 710 Corridor Project was circulated for public review, which was scheduled to end on August 29, 2012. Please note that due to public request for an extension of the public comment period:

The California Department of Transportation (Caltrans) has extended the public comment period until September 28, 2012.

The public should also take note that Caltrans, as the lead agency, has identified that the portion of sub-section 3.13.3.2 on "Public Health Considerations", starting with the first paragraph and continuing to the subheading "PM Mortality and Morbidity" and including Table 3.13-29, which was included in the general environmental document is changed as identified in the following ERRATUM:

Section 3.13.3.2, Page 3.13-51; The portion of the sub-section 3.13.3.2 on "Public Health Considerations" starting with the first paragraph and continuing to the subheading "PM Mortality and Morbidity" and including Table 3.13-29 is moved to Chapter 4.0, *California Environmental Quality Act Evaluation* at the end of Section 4.2.4.1 "Air Quality" on page 4-41.

This correction is not significant new information, and does not change the analysis or conclusions of the Draft EIR/EIS.

Thank you for your interest in this important transportation study. If you have any questions regarding this matter, please contact Garrett Damrath, Senior Environmental Planner, at (213) 897-9016.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Miles".

MICHAEL MILES

District Director
